**Consider Us!**

We produce over 50,000, 100% cotton welding hoods each year as a part of our mission to enrich the lives of individuals with unique abilities and other life barriers. Sizable portions of the excess cotton are repurposed into rags, fit for a variety of uses.

## Mission Services

At Columbia Ability Alliance, we believe in personalized success. Individuals employed with our Solutions department work on contract fulfillment projects, providing them the opportunity to hone technical skills while earning a paycheck. Solutions is more than a production facility—it's an opportunity for individuals with unique abilities to achieve their goals and gain personal independence.

From employment services, specialized job and life skills training, career opportunities, a center for social enrichment, and connectivity to community resources, our services enrich and empower these individuals to achieve personal success.

## Welding Hoods

Our 100% natural cotton rib fabric, hand sewn hoods are the perfect lightweight material for welding, automotive work or painting.
